

Jason Xiques
jason.xiques@nsci-va.org
(402) 232-1517

Mr. Xiques serves as a Command and Control Analyst and Subject Matter Expert supporting United States Strategic Command (USSTRATCOM). Mr Xiques is uniquely qualified with years of experience in operational flying, training, test, evaluation, and acquisition of multi-million dollar programs. He currently supports USSTRATCOM with defining user requirements and conducting operational tests of the Global Adaptive Planning Collaborative Information Environment (GAP-CIE), a web-based course of action development and situational awareness tool. He has over 23 years experience in bomber global strike operations and various joint staff duties. He served as Chief of Operations Plans, Chief of Time Sensitive Planning, B-1 Detachment Commander, B-1 Weapon System Team Chief, B-52 Program Element Monitor, and Chief of the B-1 Flight Instructor Course. He has flown over 3600 hours in both the B-1 and B-52 aircraft to include employing the B-1 in its first combat mission during Operation DESERT FOX. Mr. Xiques has led multiple cross-functional teams tasked with developing courses of action for senior defense officials. In addition, Mr. Xiques developed the USSTRATCOM Time Sensitive Planning procedures and the JFCC Global Strike Bomber Command and Control procedures for execution during global strike operations. He brings an abundance of strategic and operational planning experience in both real-world and exercise to the NSCI team.
